

*Hello!!! Thank you for purchasing*  
**Proud of ME ABC**

My name is **Lakisha Leeks**, the author of **PROUD OF ME ABC**. I am a wife, a childcare business owner, veteran, and mother of two children. My son **EJ and Skye** are the main characters of the story.

**As a parent**, we work diligently to position our children **for success**, and it starts with reading. That's why I created **Proud of ME ABC** to be more than a book, but a beginning to lifelong learning. It's an early education learning resource to prepare children for kindergarten and beyond.

Did you know **49% of children** entering Kindergarten are not **adequately prepared**.

During a tour with a prominent private school, I learned Kindergarten students were required to read upon acceptance. Immediately after the tour I knew that I wanted to create something to help children **learn to read** early. At four years old my daughter could read and at two-years-old my son could identify his alphabets, phonetic sounds and over a dozen site words.

I use this book and companion cartoon in my childcare program. Children and **parents love** it because they have witnessed the improvement with reading, phonics, and letter identification in their children.

*Lakisha Leeks*

*I would like to introduce you to:*

## **THE 5 MINUTE DIFFERENCE :**

***Below I will include simple instructions.***

Reviewing this book only **5 five minutes** daily with your child will make a difference in their learning and development. This book and cartoon will help your child learn to identify letters, phonetic sounds and identify pictures:

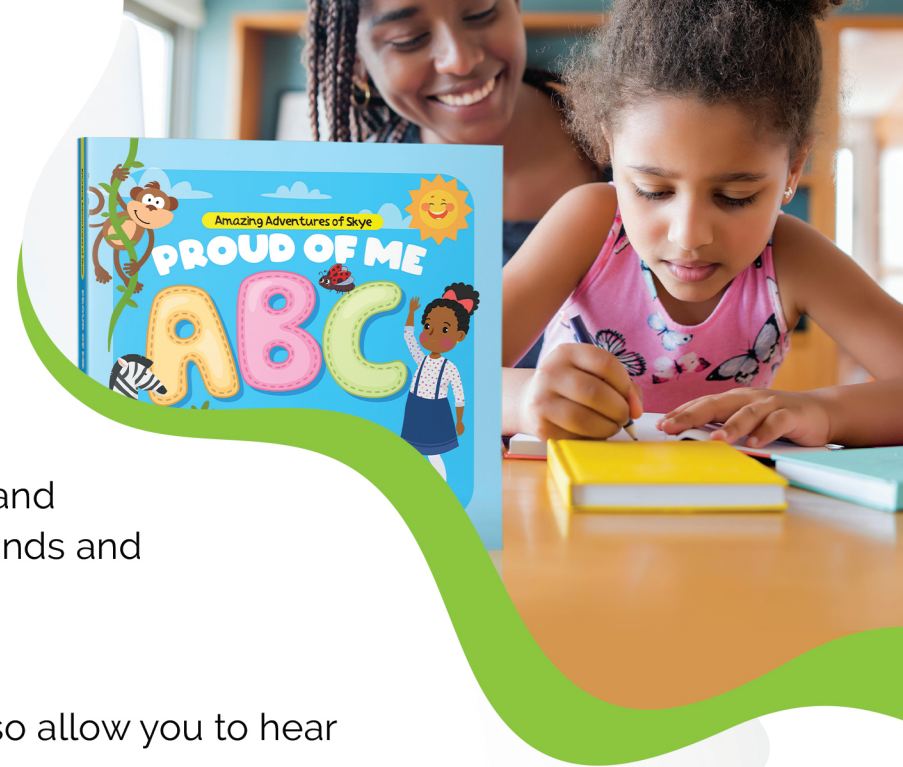

1. ***Start with the first page***, say, and point to each letter.
2. Encourage your child to repeat the letter after you. This will also allow you to hear their pronunciation of each letter.
3. ***Identify the picture***. For example, i.e.: "A is for Apple". Point to the apple. It is important to say each word on the page. Don't skip the site words "is and of". Have Fun with it!!
4. **Repeat:** Pointing to each letter, using the site words (is, of) and the picture on each page.
5. ***After 1 month***, ask the child to show you a specific letter, and ask them to identify the picture. If your child answers incorrectly at first, it's totally ok! Please be patient with them. They are learning for the first time. As you consistently review the book with your child they will learn.
